

Multiple Device Backup

Backup multiple PCs, Macs, Linux, iPhones, iPads and Android devices into a single account. In addition, data from external hard drives can also be backed up.

IDrive Express™

Quick backup and retrieval of data in less than a week via physical storage shipment, ensuring no bandwidth usage.

Security and Privacy

Transfer and store files with 256-bit AES encryption using a user-defined key that is not stored anywhere on the servers.

Cloud Drive

Files and folders will be synced in real time across all the devices that you link using Cloud Drive. The Cloud Drive storage does not impact your backup storage, and matches your backup storage limit.

Fast-Fast-Fast

Incremental and compressed backups will ease network bandwidth by transferring the modified portions of a file.

Continuous Data Protection

IDrive automatically recognizes the modified parts of files and backs them up.

Share what you want

Share your files/folders via email, Facebook and Twitter(X).

iPhone, iPad and Android Backup

Access files backed up from PCs, Macs, and Linux computers or synced from connected devices; protect mobile data with apps for iOS and Android.

Manage Computers

Web-based console helps manage data backups, restores, application settings and more, on remote computers.

Retrieve Data

Search and restore files from the desktop application or via any browser; provision to recover deleted files from Trash within a period of 30 days.

Stay Informed

Activity reports, backup status reports, share reports - all keep you informed.

BUSINESS FEATURES

Server Backup

Backup Windows and Linux servers with ease. Includes SQL, Exchange, VMware, Hyper-V, and Oracle backups at no additional cost.

Sub-accounts

Create multiple accounts using your storage space and monitor your backups from a single admin console.

Multiple Express Transfers

Get Express Backup for free, 3 times a year for up to 3TB of business data using IDrive Express™. Speed up large data restoration for only \$99.50.

Business Compliance

IDrive helps businesses comply with regulations such as HIPAA, SOX, GLBA and SEC/FINRA.
